Website: www.humblehydrogen.com

OUR TEAM

Consists:

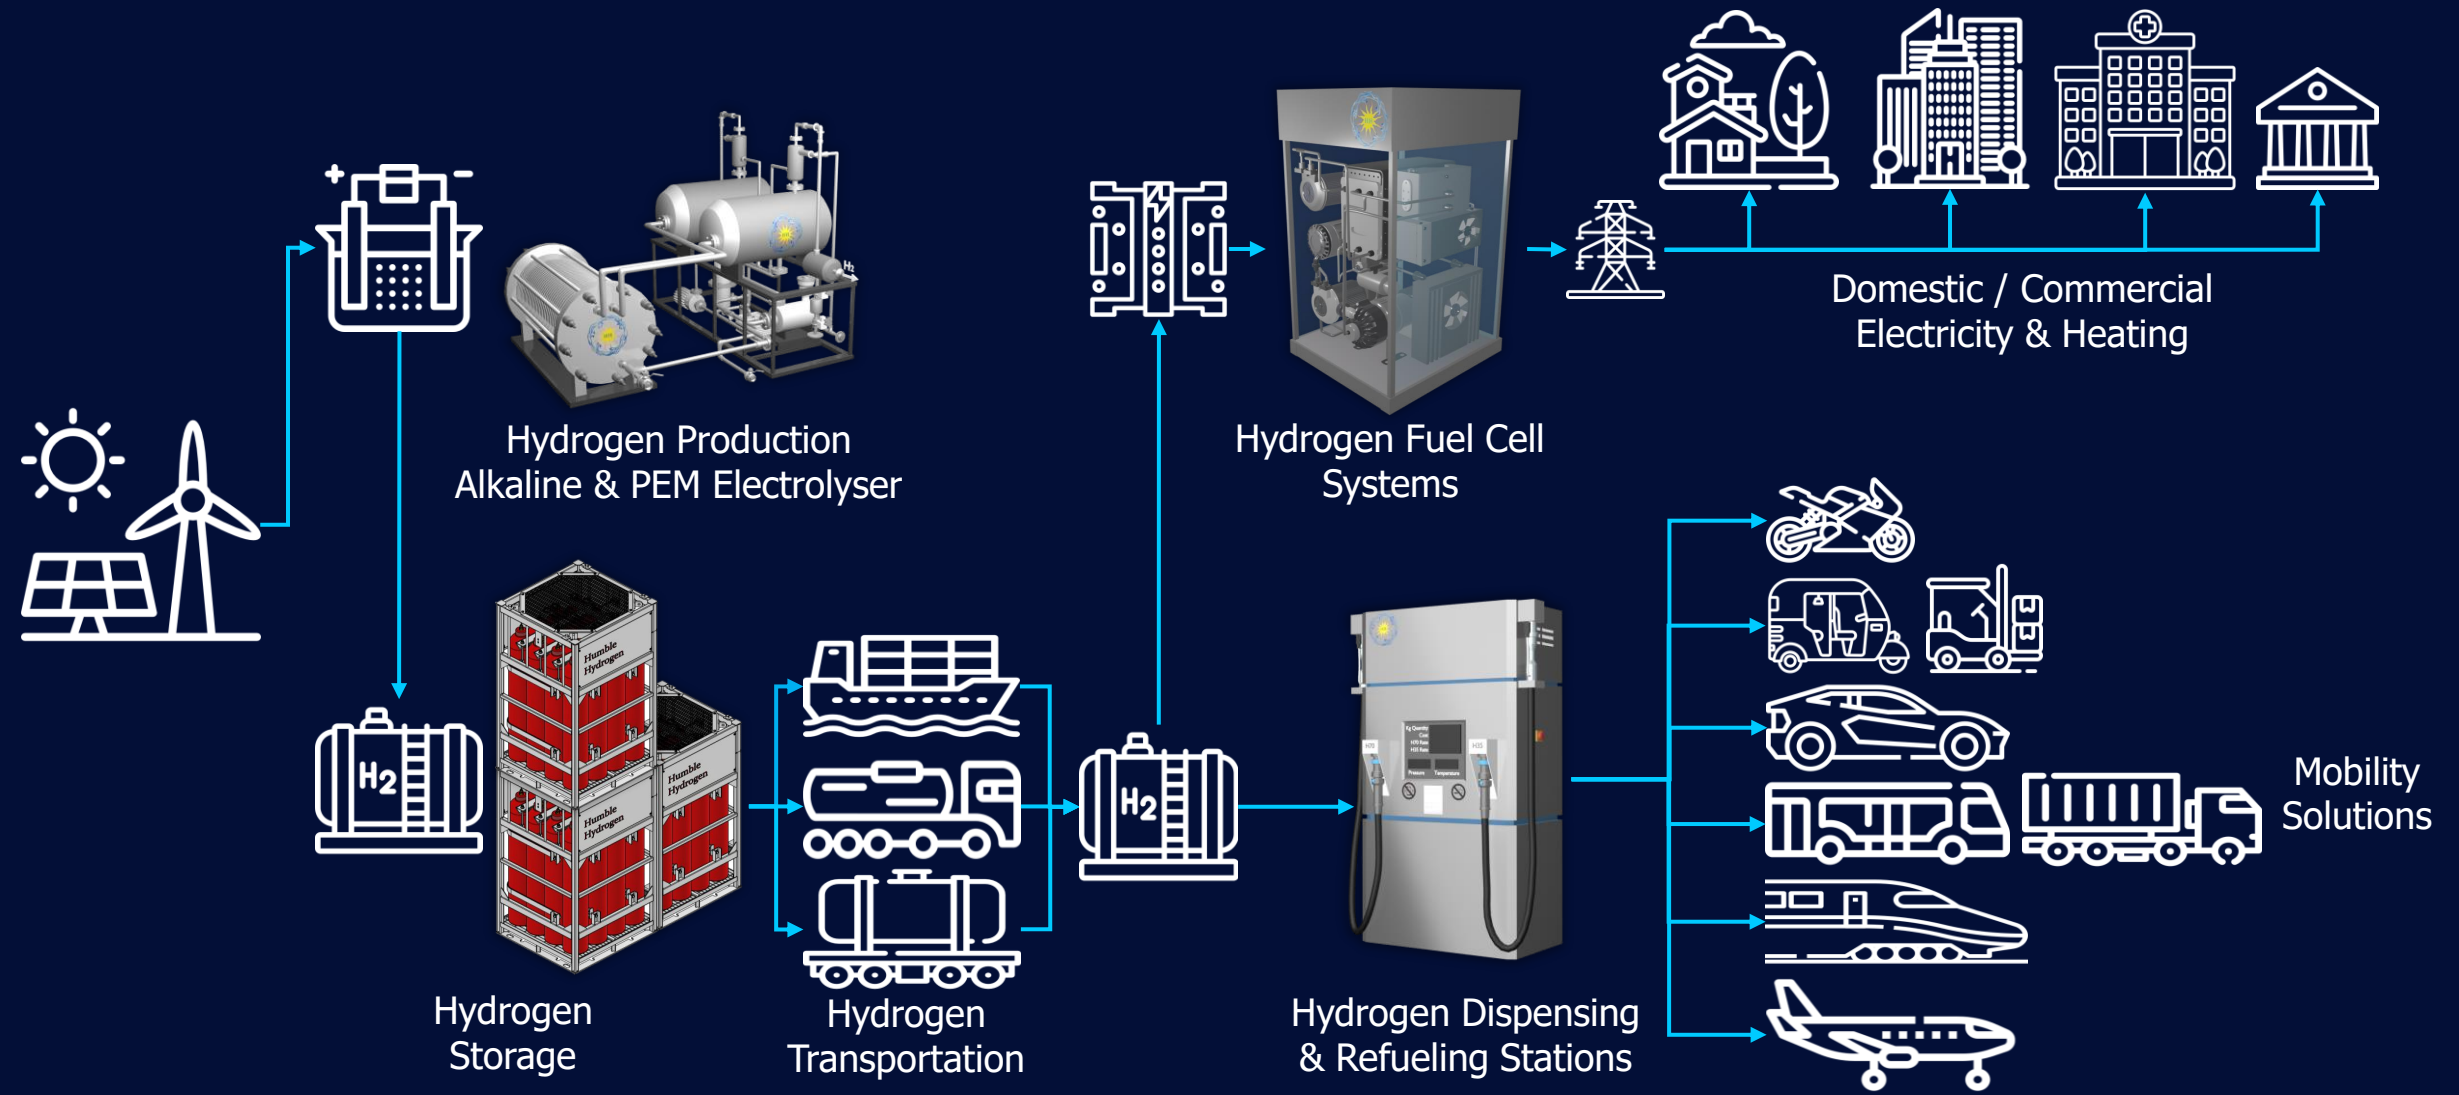

- Material scientists
- Fuel cell development experts
- Electrolyser development experts
- Hydrogen refilling station experts
- Hydrogen storage experts
- Automotive powertrain experts
- Mechanical engineering experts
- Manufacturing processes experts
- Web & software development experts
- Marketing & sales experts
- Graphic designers

Speaks in:

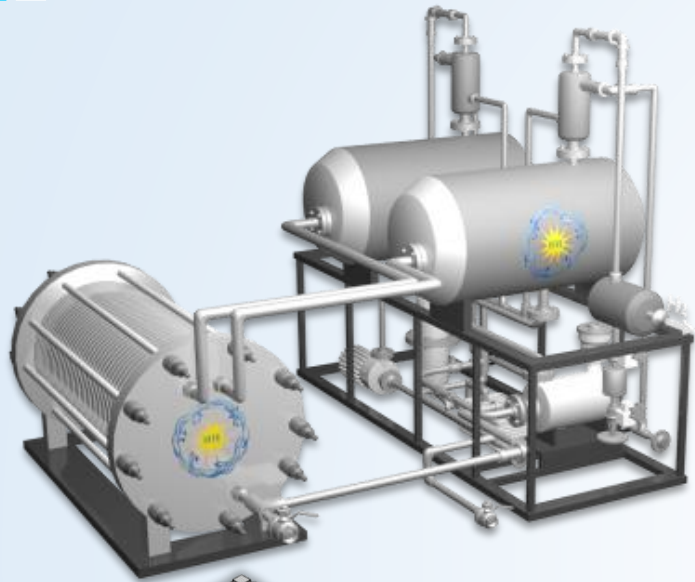

- English, French, Hindi, Marathi, Bengali, Telugu, Marwari, Italian, Mandarin, Russian, German, Spanish, Arabic

PRODUCTS & SERVICES

Hydrogen Systems Designing, Sizing, Project Planning, Development & Consulting

OUR OFFERINGS

Alkaline & PEM Electrolysers

Design & Manufacturing of Hydrogen generation solutions

H2 Pressure Output:

30 - 40 Bar

H2 Purity:

99.97 to 99.99995%

Solution Capacity

Upto 100MW

Hydrogen Gas Dispensers

For refueling cars, buses, trucks & forklifts

Compliance:

SAE J2601, 02, 03

AIS-157

System Monitoring:

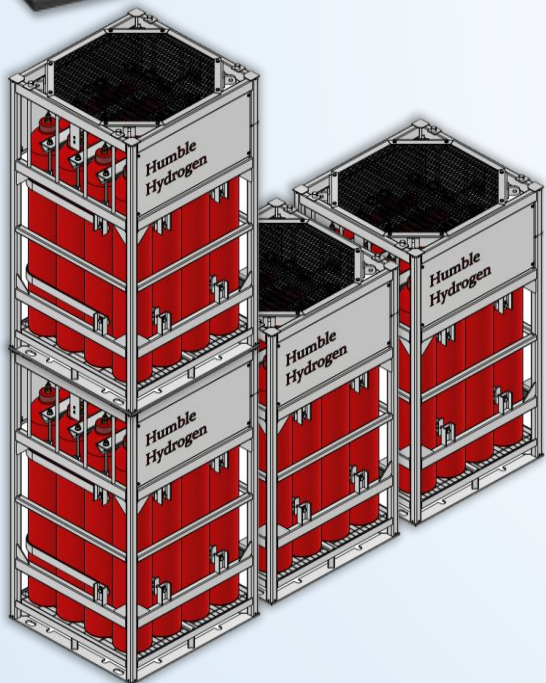

Active closed loop safety monitoring system

Nozzle Option:

H35 Individual Nozzle

H70 Individual Nozzle

Hybrid H35 + H70 Dual Nozzle

Hydrogen Storage

For Gas Storage per pack

Storage Pressure:

200 & 900 Bar

Multi Cylinder Pack Capacity:

50 liter/cylinders, 12Kg per pack

MCP Special Design Feature:

Stackable & Compact Design

PEM Fuel Cell Systems

To power stationary & mobile applications

5 kW to 100 kW solutions

Operational Lifetime:

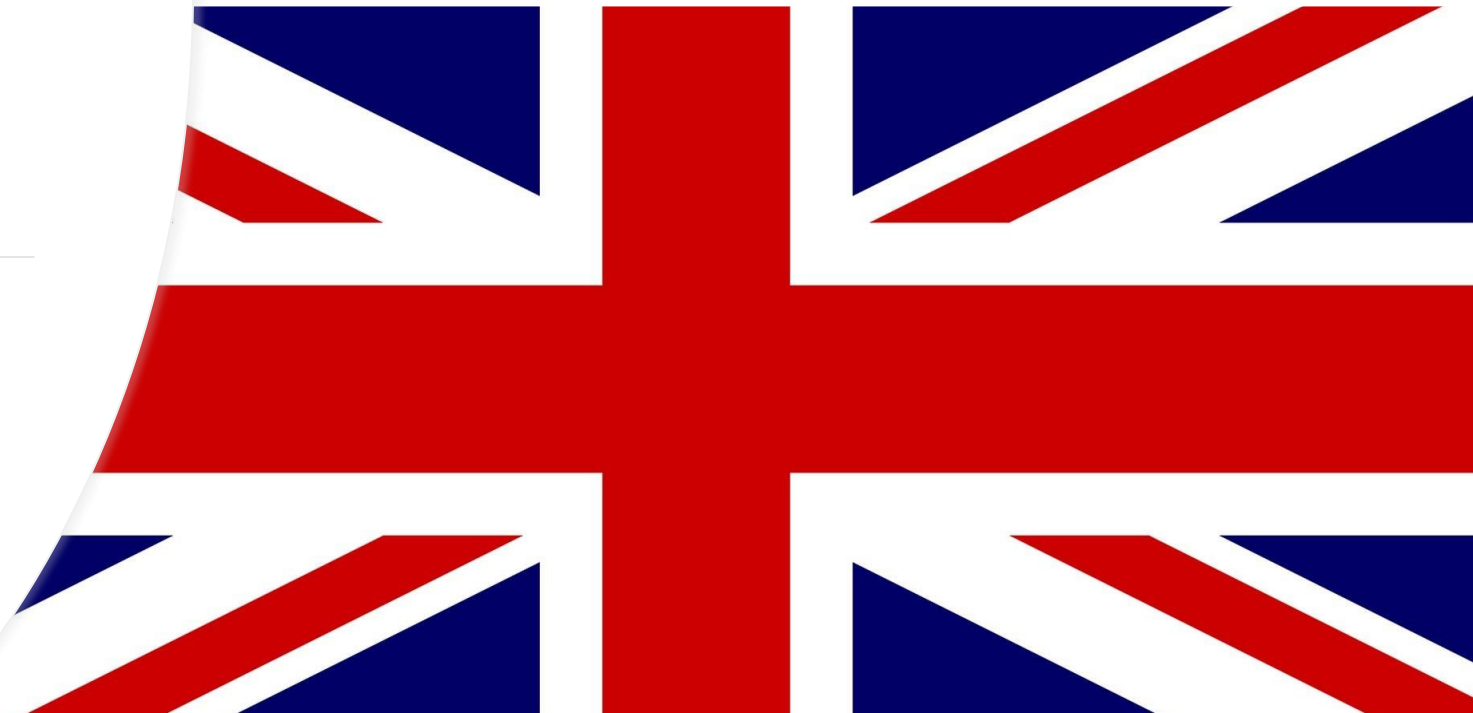

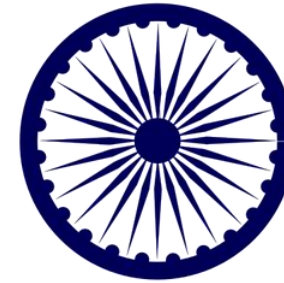

20000 hours

Application Suitability:

Mobile & Stationary

**Our Products Are Proudly
Designed & Made in India
with the British Technology
& Global Safety Standards**

HUMBLE HYDROGEN LTD.
