

**Power Roll
Disruptive Energy Storage & Energy Generation Technologies**

August 2018

Power Roll core technology providing dual opportunity

A UK / Indian Partnership

- Power Roll working to bring our disruptive technologies to India and wider SE Asian markets
- Our strategy is to partner with Indian based organisations to accelerate development and commercialise the technologies in India and wider in SE Asia
- Collaboration established with Deki Electronics to disrupt the supply of electrolytic capacitors in the power supply and other markets
- Ongoing collaboration with TERI in relation to solar pv projects
- We are seeking further Indian partners and investors:
 - Supply chain – PET, metallisation, active chemicals
 - Routes to markets / commercialisation
 - Funding and investment
